Car maintenance discussions, needs and wants, can be a challenge for a woman. The team at Schaumburg Automedics takes time to inform me if I need particular service at this time. I do come in with knowledge having reviewed previous worksheets. The team at SA and I work together for the best plan of service for me at this time. The manner in which this is done is informative and clear. I am very comfortable with their work ethic and performance.

On Tuesday, July 16, I stopped...

★★★★★ by LEE HOGAN on 2013-07-21

On Tuesday, July 16, I stopped by Schaumburg Automedics to get an estimate on fixing my vehicle before taking it in for the emissions test. I have been looking at the service engine light for quite some time. All I wanted was some kind of idea of what it might cost. J J, the owner stopped what he was doing, got some type of test equipment, walked out to my car, plugged the equipment into the cars system, and ran a diagnostics test on my system. It took a few minutes to get a reading, which as he read it, wasn't what he was looking for. First of all, I never expected J J to drop what he was doing when I got there. To top off the visit, J J, not being satisfied with

the first diagnostic reading, went in the shop, got a different piece of test equipment, and ran another complete test, which I never expected him to do. I felt bad that I might have interrupted him when I arrived, but felt really good about his concern for my problem. We talked about a range of what the repairs might cost. Being a 2001 Maxima, with 180K miles, I really didn't want to spend anywhere near the high end of the estimate, but something had to be done, since emissions was right around the corner. Anyway, he reset the system, and I drove away, He didn't charge me a penny. That night after driving about 30 miles, the engine light came back on. I called J J the next day. He asked if I could drop the car the next day at 7:30AM. I didn't have a way to get to work, so J J offered their company car. This made it very convenient. Again, the experience of dealing with Schaumburg Automedics was getting even better. To top off the great experience, J J called at 11:00AM to tell me the car was ready. I asked for the total of the bill. I was shocked. For J J to stop what he was doing the first day, do two diagnostic test, then give me a loaner car, and fix my car, OH, I FORGOT TO MENTION HOW SCHAUMBURG AUTOMEDICS WENT ABOVE AND BEYOND, THEY TOOK MY CAR OVER TO THE EMISSIONS TEST LANE AND HAD THE CAR TESTED, AND IT PASSED!!!! I never asked them to do this. All I can say is, if Schaumburg Automedics treats all their customers even half as well as they treated me, they'll never have to advertise, word of mouth will take care of that. Thank you J J!

I called on Monday to make an appointment. I was told that you had a busy schedule. You asked if I could bring my car in at 8:00 Thursday morning. I said O.K. I dropped the car off at 8:00. I didn't hear anything from you so I called at 3:00. I was told that you just started my oil change and you were just starting the inspection of my car. You said that you'd call back soon. Two hours later I was told that the estimate was over \$1,800 and the work wouldn't be finished until mid day Saturday because it was too late to order the parts (today). I was offered a loner. I believed that if i brought in for an early appointment that an inspection would be done early enough in the day to be able to the parts. This has happened before to me. On the good side, I'm very happy with your work and your staff has been accommodating and informative.

Very courteous and kept in touch and explained everything that needed to be done immediately and what could wait . Pricing was given before and was finished to the letter.

No surprises. Even gave me pointers on DIY repairs which I appreciated. Top quality NAPA parts and a great guarantee. Top notch people who had all the answers and knowledge that puts your mind at ease. Automedics are true professionals, I was working on my jeep and didn't have the proper tool to finish the project so I went to Automedics for assistance and they not only made time for me but finished the job and then some. They truly did go out of their way for me and explained everything in detail, and charged me a VERY decent price for their efforts. JJ and his guys make you feel like family, If you want your vehicle fixed right the first time Automedics is the place to go, in fact they are the ONLY guys I trust working on my vehicles. I've been back several times and they always have made the repairs in a timely matter and 100%. Thank you Autoumedics you guys are top notch. Ron Bollmann

I bought my van Nov 07, with 66k miles. It is a 2001. It has 160k miles now. Schaumburg Automedics is the only shop that I have brought my van too. They do a fabulous job! My van is running like a new one. I am more than pleased, with the way they take care of my van. They really take care of their customers. I would (and have) recommended them to many friends, family, and strangers!!!!

Schaumburg Automedics was positively recommended by JASPER Remanufactured Products for the replacement of my Jeep's defective engine and it turned out to be a great recommendation. When Schaumburg Automedics checked the Jeep they discovered additional defections and offered (if I agreed which I did) to repair them also before any of them became destructive to the vehicle. They were excellent regarding the up-front establishment of the repair charges, in addition they courteously provided loaned vehicle at no charge for the time duration of the repair which gave me great ability to attend meetings and events without having to rent a car. They also phone called me when the repair and service would be finished within several hours so I could plan returning to pick up my vehicle and return their courteous loaned car. Since I've recovered the repaired vehicle it has definitely behaved far better than before Schaumburg Automedics performed the engine replacement and the other repairs.

I took my car- Jaguar, in to get diagnosed for \$186, because of a engine light that caused my emissions to fail. I was told that there were at least 15 error codes that popped up. Scott- the mechanic recommended that I "get rid of this vehicle due to excess possible excessive repairs". I was devastated. I then took my car in to a Jaguar dealership to get a second opinion/diagnosis for \$150- and only they saw only one error code. The computer issue was fixed for under \$200 and passed emissions. I wasted \$186 for Scott to tell me my car was crap and it was a complete lie. I do not recommend this place at all. Giving them one star due to the fact that I had to click on one to do this review.

The whole experience was great from start to finish. I took my car in for an oil change and asked that they check a noise coming from the front end. They inspected everything and found quite a few things that needed repairing. Scott explained everything thoroughly and answered all of my questions. They needed to keep my vehicle overnight and let me take a loaner car home. Scott kept me informed throughout the entire process. I even received an in depth report of all of the work that was performed and the results of all of the inspections they also performed. They were excellent to deal with and I would recommend them to anyone. They are honest and excellent at what they do. Thanks so much!

I have been a customer for many years, since I used to live in Schaumburg. I still drive from Berwyn, because I have found Schaumburg Automedics to be so trustworthy. They were

originally recommended to me by several different people at a local auto parts store, who said they were the "best and only" place to go in that area. They have provided me excellent guidance to make decisions about my car's care and still watch my budget, including during the 'final days' of my last car, and now keeping my current car going. My recent visit included a very informative discussion with Scott, who helped me make a very thoughtful plan for addressing my tire needs over the next year or so. JJ really cares about keeping his quality business going, and takes pride in their reputation. They aren't always the cheapest (but their coupons help), but they are always reliably the best.

★★★★☆ by GEORGE CURCIO on 2013-05-27

I am usually very happy with Schaumburg Automedics. When I picked up my vehicle last week, there was an area with damage (scratches in the paint and a chip in the paint) on the drivers door. There is no doubt that the damage occurred while in your shop for service. I would like to thank Scott for his effort to fix the damage.

Busy shop (good sign). Called J.J., who said he was completely booked for the day. Told him my oil light was fading in & out. He squeezed me in, apparently just in time as the oil chamber was completely dry, nothing on the dip stick. Basically saved my engine. This is my third experience with Automedics. I'd trust this place over the dealership (Elgin Honda) anyday.

This is my 2nd time taking my car here. I would definitely recommend using Schaum Automedics for your vehicle's needs. Jennifer is surprisingly great & very customer service oriented. You don't get this too often when dealing with mechanics. They are very honest, saving me around \$200+ on a new Water Pump I had previously installed. The item I purchased was defective. Instead of charging me for a new one, they sent mine away under warranty. This saved me a lot of time & hassle. They even showed me the burnt turn signal bulb they replaced. There were some unexpected delays in getting my car fixed. However, they gave me their Loaner Vehicle so I could pick up my son from Daycare...free of charge. You guys killed it! I brought in my Highlander because I thought that the brakes were beginning to go. I would have easily accepted the diagnosis of needing a front and rear brake job. They said that the fronts were great and the rears were at 30% life. Note that any other National Chain would have gladly given me a full brake job. I chose to do the rears - they said that the rear rotors were too pitted and needed to be replaced. I was upset that they charged me nearly 2X markup on the RETAIL cost of all the parts. I checked with their local NAPA auto parts for the parts prices. This excessive markup added over \$150 extra to the bill. I brought this up to the manager and he reduced my bill by \$50. If I can find a mechanic that is honest AND reasonable, I'll be going there.

This is the third time I have used Schaumburg Automedic. The first time, it was because of the client reviews. I was very pleased with the professionalism and prices. Most mechanic places, when I first walked in, I knew I was going to be in trouble. But with Schaumburg Automedic, I felt completely at ease and 'safe'. JJ and Scott were courteous, professional and explained everything and answered any question I had without hesitation. They did nothing without my prior approval. Their customer service is top notch, they will drop you off and pick you up. I would, and have, recommend Schaumburg Automedic to anyone looking for an honest, dependable and trustworthy car repair. They were able to give same day service and I am 100% satisfied.

Last week during the start of Chicagoland's heat wave our PT Cruiser's radiator lost its coolant, causing an engine shutdown because of overheating. Within about 3 days since we asked Schaumburg Automedics to repair our car they had it done. Because of the radiator problem a number of engine components were affected and needed to be replaced. It wasn't a cheap problem to fix, unfortunately for us, but Schaumburg Automedics quoted me a fair price for the parts and labor. I felt that they were very straight-forward with my wife and I the whole time, and very reasonable with their estimate. After they repaired the car we went to pick it up. It was all cleaned up, had new oil and coolant, the radiator, timing belt, head cylinder, etc were replaced. They even threw in a few extra little repairs but didn't raise the estimated price. Cannot complain about that. Car ran perfect. Even an annoying squeaking wheel that I had forgotten to mention to the mechanic had been somehow fixed. This has been my second visit to these guys over the last five years and they do excellent work. My dad was pleased to find out that one of the mechanics there was a favorite one from a different place he had gone to years ago (though I forget who he said it was). I recommend them to all my family and friends.

Have received a variety of services from Schaumburg Automedics for over a year now, since a local NAPA store recommended them hands down as "not the cheapest, but absolutely the best." I have found them to be great, as well as

reasonably priced (their coupons help). Highly knowledgeable, straight up, completely professional. They counseled me on replacing my car, inspected one and told me to give it back (I did and they were right), inspected another and gave me thumbs up (it's been great). They helped with the prior car on a variety of issues, and now are keeping the newer one running with no problems. I recommend them without reservation.

My "go to" mechanic is my uncle, but we moved out of state and I was in search of a new mechanic that I could trust as much as family... and I can happily say I found one! They were able to solve my car's problem with an affordable option and explained it in a way I could understand. I think what I was most impressed with was the way that each time I called, it didn't matter who answered the phone. They were all well informed on the situation, and I didn't have to explain who I was or what was wrong to multiple people. Schaumburg Automedics is now my go-to mechanic as long as I live in Illinois.

Always a professional experience with the highest quality repairs. A warranty they stand behind that is national with no added cost. Highly recommended by me and my family.

They accepted a very short notice apointment. When I showed up and they determined the work would take a couple hours longer than expected They offered to drive me home and pick me up later inthe day. Would highly recommend.

Outstanding Communications (in advance of repairs/service), complete integrity, top quality work, always courteous, EXCELLENT staff, timely performance, obviously dedicated... heck, you guys would be PERFECT if it weren't for one deficiency - you don't give out those "Girly Calendars" like they did in the 1950's. Bummer.

Never is there a concern when I take my vehicles to Schaumburg Auto Medics. Friendly yes, but more importantly, I really believe that Scott can read my mind, and already has things under control. JJ and his team are the best!

Very accommodating excellent workmanship and service. Tons of well deserved awards on their walls - everyone I saw appeared conscientious and went out of their way to provide excellent customer service.

SAI has worked on my car for years. I've gone to other mechanics intermittently, but find SAI to be the best. Thank you, JJ and crew.

I was very impressed the mechanics all seemed very conscientious well informed and focused on clients welfare. I wouldn't go anywhere else, if I didn't have prepaid maintenance which is thankfully almost up. I saw it written up on NPR's Car Talk website forum as a recommended car repair facility and they were right.

Fast Friendly Top Notch Service

★★★★★ by ED DALKA on 2010-11-22

JJ and team provide top notch service at a fair price. Easy to schedule appointments and always done on time. You are treated like they have know you forever, not a number or just the next in line.

Our van had everything checked to insure it was the battery that was bad---apparently a dead cell. This is at LEAST the second battery to have this issue in that van. Van was done on time. It always feel that the price is honest and upfront without running up with add-on costs. Everyone is professional. Hard to say either of these at very many auto mechanic shops these days.

Caring and Dependable

★★★★★ by ED FISHER on 2010-11-01

As usual, you guys look at not only my car but and me. You know I am going through some tough waters right now, and looked at my car situation with that in mind. Along with that J. J., you have quality mechanics there that pinpoint and fix what needs to be fixed!! Thanks again!!!!
